A REPUBLICAN TAX

The national sales tax, proposed to be enacted by congress in lieu of increased income tax, is advocated by Senator Reed of Pennsylvania, a Republican, and this form of tax is opposed by Democrats in congress. What the Everglades News said it was a Republican form of taxation and that no loyal Democrat would support it.

Senator Harrison of Mississippi, the ranking Democrat on the finance committee, speaking through the Democratic national committee, has declared not only against a tax revision but specifically against the sales tax if there must be a revision.

Senator Caraway, Democrat of Arkansas, joined in that view, asserting the sales tax proposal is "an attempt to shift the burden of government from those who have means to those who do not." Republican Independents, likewise, have declared unequivocally against the sales tax.

What reputable man in Florida, claiming to be a Democrat, will support a sales tax proposal in the legislature?

Advocacy of a sales tax is disloyalty to the party.

\$5,300,000 WORTH OF ROADS TO STATE

Roads in Palm Beach county built by the county at a cost of \$5,300,000 have been designated as state roads since their construction and their maintenance has been taken over by the State Road Department. It is reported by accountants who dug out the figures for use in adding the gasoline tax to the several counties.

The mileage is not reported, but among the roads are Okeechobee, west of Lake Okeechobee, cross-state road (No. 25), Belle Glade-Canal Point road and roads west of Lake Worth, Boynton and Delray Beach, so the mileage must be considerable. The mileage of county roads is small.

Most of the \$5,300,000 roads were built by county commissioners who got \$6 a day while actually in session. With most of the roads taken over by the State Road Department, the county commissioners undertook to pay themselves \$200 a month. These hundred dollars a month is too much. Members of the board who voted for the \$200 a month salary should be defeated if they are candidates for re-nomination in the June primary.

TO SERVE REFRESHMENTS—Members of Everglades lodge, F. A. M., at Pahokee, will serve refreshments at the next meeting Thursday, Sept. 24. Lodge will open at 8 o'clock and efforts will be made to resume activity during the summer luncheon. Members are urged to be on time so that the meeting can close early.

SLOW YOUR CAR IN SCHOOL ZONES, CHIEF OF POLICE HARRISON ASKS

Pahokee, Sept. 14, 1931.

Editor of The Everglades News:

In regard to the conversation we had regarding an article being published in your paper, The Everglades News, asking and warning the motorists of the different schools opening September 21st and for them to use all precautions to prevent a child being injured.

Each school has a sign at either side of it large enough for any one to observe and they must slow their cars down to a school zone limit.

I feel confident that most of the people, after having their attention called to the fact that the schools are now open, will cooperate with us in this matter.

Thanking you very much for all this past favors.

Yours very truly,

F. H. HARRISON, Chief of Police

PAHOKEE

Rupert McKee, bookkeeper at the Bank of Pahokee, was with the football squad at Lake Placid.

Miss Paychelle Lawrence left the city for Tallahassee to re-enter the State College for Women.

FLAGS SHOW WHERE CORE DRILLS WORK

As the survey crew for the flood control work goes along, "flags" are placed at regular intervals on the ridge. The flags are of muslin or a similar material and fly from stakes that are about four feet high.

Some of the flags are yellow and some are a combination yellow and black.

Answer to the crew said Monday that the yellow and black flags showed where the core drilling machine was to work.

B. ELLIOTT LEARNS WHO HAVE NO CARS

A pretty good list of persons on East Beach who do not own cars was secured by B. Elliott as a result of an announcement in the paper last week that transportation will be furnished in case of a hurricane. Mr. Elliott is chairman of the Red Cross transportation committee.

Information was given very generally as to the place of residence of the non-owners and the number of persons in the family and information was given to them by Mr. Elliott as to just what they were to do in case the Red Cross announced that it would put its services at the disposal of the community.

The impression is not altogether correct, however, that vacations with pay are to be provided by the Red Cross.

Mr. D. W. Crocker returned home Wednesday from South Bay where she looked after the post office while Mrs. Hartline, her mother, visited in north Alabama. She quotes Mrs. Hartline as saying there never was as much good stuff to eat in that country now as all of the crops have been fine.

Members of the football squad are expected to return today (Friday) from the camp at Lake Placid. William Howell, 17 years old, a member of the squad, suffered a fractured collar bone while making a tackle of a dummy. He was brought home Monday and will be laid up for a couple of weeks.

CANNING RATTLESNAKES

George K. End, who lives at Rattlesnake Garden, 10 miles east of the DeBoto county seat, was canning up meats and vegetables when his young son brought in a rattlesnake. "Can this, too, pa," the boy said, and it seemed a good idea so the father did so. Being a legionnaire, End took a can to Tampa when the American Legion was making a survey of the rattlesnake meat up and the article was mentioned in an eastern magazine which has resulted in End getting many orders for rattlesnake meat at \$2 for a No. 2 can.

NAZARENE REVIVAL

The Nazarene revival is still in progress in Pahokee and the revival says the attendance has been good in spite of the showers. He says all are welcome.

MORE VEGETABLES IN LOWER GLADES

Hundreds of acres of much land back of Hollywood and Dania are now ready for planting, says Wallace Stevens, formerly of Moore Haven, now editor of a paper at Hollywood. The farmers in the lower Glades must be planning a big crop, he says, their plan being based on the belief that not much sand land will be in cultivation. Commission houses are doing to do in case the Red Cross announced that it would put its services at the disposal of the community.

The impression is not altogether correct, however, that vacations with pay are to be provided by the Red Cross.

CANAL POINT

Rains have damaged concrete highways by creating potholes in the places where the rock is soft. Foreman John Bergstrom has had to put in a good deal of work on bridges at Chancery bay.

William Keel and Al Graham of Cuba, Kansas, arrived in Canal Point Sunday night to stay here during the winter and farm the two 10 acre tracts north of town owned by William Keel. John Keel of Cuba. They are stopping at Mr. Jack Barrett's until they make more permanent arrangements.

A fishing crew from Okeechobee worked this week opposite the Lake Shore Supply Company's warehouse at Sand Cut siding. Instead of using a boat to take the fish to the packing house, the fish are landed each night at a dock near the French farm and transferred to a truck in which they are taken to Okeechobee.

Merlin Thompson, who left several months ago with Walton Bragg on a bombing trip, got back Monday. Most of the time was away spent in Baltimore and on his way back he came through Washington. He was a Washington correspondent and other nights. He says hitch-hiking is not as good a way to travel as being afraid to pick up men on the road, and when two hitch-hikers are together, the motorist is certain to refuse a ride. So Merlin

COMMUNITY GOSSIP

John Forman says that the noble experiment of having an engineer for-president failed in the case of Hoover and he's in favor of the next president of the United States being a chemist. (John isn't an engineer; he's a chemist.)

The broadcasting vocatists who think they imitate Kate Smith when they sing "When the moon comes over the mountain" through their nose are mistaken. It would sound just as good if they sang through a cigarette paper into a comb—and a curly comb at that. If there is anyone left, on earth, who knows what a curly comb is, let them tell us.

Until lately all the grapefruit juice sold on East Beach has come from a plant at Lake Wales that uses "ridge" fruit. Last week Ralph Stations at Pahokee stocked the Blue Goss grapefruit juice which is canned from Indian River fruit. The Indian River juice is better than that from the "ridge."

During the war, when Liberty bond selling campaigns were on, and such things, the dwellings of places of business of so-called "blackies" were painted yellow. Secretary Abe did not say, however, what color the neighbors of that man in the store painted his house.

At the Rotary Club they were talking about how to get people to talk their dwelling houses, and Secretary Abe did not say, however, what color the neighbors of that man in the store painted his house.

Mr. and Mrs. T. J. Campbell and Douglas Graham of West Palm Beach visited Canal Point and Pahokee Friday afternoon of last week to see what was going on in the upper Glades. Mr. Campbell was a partner with J. H. Poland in ownership of section 5 several years ago and Mr. Graham owns land east of Canal Point.

Miss Eunice Dean, who had visited her father, T. H. Dean of the Supreme store, returned to Vero Beach with him Sunday when he went there for a brief visit home.

WITT GIBBS PICKED
"Witt Gibbs, who picked this season for the Albany, N. Y., Eastern League team, drove in yesterday. He is under contract to the New York Americans and expects to go back to Albany next season.

SOLICITS BUSINESS
FOR COMMISSARIES

Bills quoting sugar company commissaries' prices were generously distributed in the upper Glades the latter part of last week, advertising the goods in the company's commissaries at Liberty Point, Benbow, Canal Point, Bare Beach and South Line.

As the sugar company owns the Clewiston townsite and sought owners of lots there as sites for mercantile establishments, it has no commissary in Clewiston to compete with the retail merchants in Clewiston but it has a commissary at Canal Point, where the company owns only part of the townsite.

Distribution of the bills implies that the sugar company is in direct competition with retail merchants in Canal Point.

ALONG THE RIDGE

To make a base for lawns and shrubbery, muck is being deposited in yards at many places along the ridge and at other places and it being put on muck. Rufus Gallo says does most of the hauling.

A big poinciana tree is still in full bloom north of Canal Point. The bloom is usually off by this time of year, and that is the case at most places, which makes the tree at Gus Strand's place more noticeable.

Three lots north of Canal Point owned by J. H. McKelopp of West Palm Beach are being cleared off and it is understood a big tract of coconut trees is to be extended to run in front of the McKelopp lots.

Several miles of the ditch on the west side of Ochsner highway has been cleaned out. This will drain the road and also the abutting land on both sides of the road. If the lake stays down.

Jags of lumber and other building material are being hauled to the places on the ridge all the way from Sand Cut to Beacon Point for little repair jobs, and although there is no big building being done, there is a little improvement all along.

ABOUT PEOPLE

Sugar mill men are returning to Clewiston and assembling for the resumption of operations in the winter. D. A. Cline of Ponchatoula, La., has returned to resume his work at the mill.

J. J. Harrington of Detroit, Mich., has been sent to Clewiston by Hitting, Inc., reorganization manager, to join the staff of the new sugar company.

W. A. Young and W. L. Young of Moscow, Ga., of the Correll Young Construction Co., revisited the lake region last week. Their firm made the extensions a few years ago of the R. E. C. and A. C. L. railroads.

M. G. Langford, principal of the Clewiston school, is making his home with the H. R. Halls at that place.

Mrs. T. W. Conely, Jr., of Marianna, Fla., is visiting her son T. W. Jr. at Okeechobee.

J. E. Moores has returned to Okeechobee to resume work as principal of the school.

Charles J. Raulerson, Jr., of Boca Raton, employed at Moore Haven by the State Road Department, died at hospital at Arcadia and was buried Wednesday at the Boca Raton cemetery.

FARM NOTES

For several years I've argued in this paper and to everybody that will listen to me that a farmer ought to live on his farm. It is not enough for the farmer to live in a town close to his farm and have a negro look after the farm, for that makes a double expense of maintaining two sets of dwellings—one in the country and one in town, and moreover the white man owning a farm ought to possess more land than a negro, a hired man and a negro ought not to be expected to give the close attention to a truck farm that the white land owner ought to give to it.

To glad to see that I have converted W. T. Nettles, district agent from the Florida Experiment Station, to this view even if few of the farmers in this section accept the idea and act on it. At the Farmers Meeting at Homestead two weeks ago Mr. Nettles gave it as his opinion that there is a real loss in the system of living several miles distant from the farm.

Two thousand dollars is asked for some good dwelling sites in Pahokee—they aren't worth it, but that's what they are held at. On the other hand, some pretty good land can be had for \$200 an acre, or 10 acres for the price of a lot in town. No farmer can get ahead who pays \$25 a month for a dwelling house in town and uses two or three hours a day traveling between his "town house" and his farm.

It may be all right in a grain growing or cotton growing country for the farmer to live in town, but it won't do in a trucking district, where an attack of insects or disease may come on a crop while the farmer is at a home several miles away. Likewise as to making preparations to protect a crop from frost—you've got to be right there with the crop.

Farm homes would mean the development of a system of farm roads, which we haven't got now, and the extension of power lines and water mains and fire protection and an increase in land values.

When our real estate brokers think they are comparing farm and values elsewhere they forget that in those other places there are improvements that cost thousands of dollars on the land that are taken into account when the price of the whole property is estimated.

Ten acres of land isn't worth as much as ten acres of land with dwelling house and other improvements.

MAW AND PAW
Maw and Paw had an awful time getting married. Maw wouldn't marry Paw when he was drunk and Paw wouldn't marry Maw when he was sober.

CANAL POINT M. E. CHURCH

The Epworth Leaguers of the Canal Point M. E. church will entertain the Leagues of Belle Glade and South Bay Wednesday, Sept. 23 at 7:30 p. m. A short program will be rendered in the auditorium of the church, after which there will be a recreation period of about 45 minutes on a nearby lawn if the weather is favorable, closing with light refreshments at the church. All League members are cordially invited, and all those of League age are welcome to come and enjoy the evening with us. We are glad to broaden our acquaintance.

Regular services Sunday, Sept. 20th:
Sunday school 9:45 a. m. Preaching 11 a. m.
League, 7:15 p. m. Preaching, 8 p. m.

Let us acknowledge God in all our ways and he will guide our step.
R. E. STARS, Pastor.

LAWS TO PROTECT FROM TRESPASSERS

The Florida game laws offer no protection to land owners who wish to protect their lands against trespassers, says a bulletin issued by the Department of Game and Freshwater Fish. However, there is a provision in the general statutes that affords limited protection. Section 7373 of the Compiled Statutes of 1929 provides that no person or corporation shall fence lands upon which game birds or animals are being propagated, may be legally posted against hunting. The boundary lines must be marked with signs, conspicuously placed at intervals of not less than 200 yards, giving warning that hunting on the area is prohibited. It further provides that not more than 640 acres in one tract may be so posted, and that no person or corporation shall post more than one such area.

INSURANCE

OF ALL KINDS

WIND-STORM: Season will soon be here.
FIRE LOSS: Is liable to occur any minute.

Avocado
AND
Citrus Trees

I am prepared to bud all varieties of both avocado and citrus trees on your own property at very reasonable rates.

If desired, I can furnish boxed and sprouted avocado seed and sour orange seedlings for stock at bargain prices.

Trees grown where they are to be planted are much superior to shipped in stock, and under my contract, can be produced for less than half the usual cost.

NEWS FROM AROUND THE BIG LAKE

SOUTH BAY

Word has been received that Mr. and Mrs. Ivan Van Horn, who spent the spring with Mrs. Van Horn's parents in Cleveland, are getting along nicely in their new location at Southport, N. C. where Mr. Van Horn has a position with the Huffman Construction Company at the Cape Fear project.

Mrs. W. H. Rawle, president of the Parent Teachers Association, called a meeting of the executive council on Friday afternoon to complete plans for the teachers' reception on Sept. 29th.

Farmers in the immediate vicinity of the South Bay pumping plant are becoming highly impatient at the continued daily pumping. Most of the growers in this district have unusually high lands which in spite of some rainfall recently is still exceedingly dry and with the low level of the lake and all of the water pulled out of the drainage ditch, will make farming extremely hazardous this fall due to lack of moisture unless there is an excessive rainfall during the next few weeks. It is understood that this pumping is at the request of David P. Cooper & Richardson, asparagus growers, near Ft. Pierce.

BELLE GLADE

who are operating on some low land and felt that they need pumping with the water table as low as it now is that they should install their own plant and not use the district pump to the detriment of other growers.

The regular morning session of the Community church was taken up on Sunday by an official board meeting at which time several questions of interest to church and community were discussed.

Special music was furnished at the Community Sunday school by Mr. and Mrs. S. C. Campbell who sang a duet.

C. M. Lee and family are moving from the Wilder home here to the vicinity of Miami canal lock, where he will farm this season.

Mrs. L. L. Hartline and family who visited relatives and friends in Round Mountain, Ala., returned home on Friday.

Mrs. George Alberts was out making calls on Tuesday afternoon.

D. H. Hawkins suffered painful injuries to his foot and leg on Saturday in an accident with his Fordson tractor.

Mrs. M. G. Gay expects to leave the last of the week to take up her school duties at Labelle.

Miss Martha Williamson of Chicago, formerly of Cleveland, has been a guest at the University of Florida Experimental Station this week.

Captain Wilfred Lockhart of Cleveland was a visitor in South Bay on Tuesday.

Mrs. and Mrs. C. C. McCurdy and daughter have returned from their summer vacation.

Inspector Julius V. Glat of Miami was a recent guest of his mother, Mrs. J. M. McKeon.

Murray Gay, Bill Poe and Jack Forbes made up a fishing party and motored to Liberty Point recently with one hundred five pounds of bass. Murray brought home the champion catch of the day's fishing, a six pound pike.

M. H. Barnes and family who have been living at Fort Mayaca for the last year, intend to return to their home in Bean City in the near future.

A. I. Dean of Lake Worth was a recent caller in this vicinity. Looking after his property here and looking over fall cropping prospects.

N. Jones, who has been spending the summer in Georgia, has returned to South Bay where he expects to farm this year.

Floyd Allen undertook the duties as temporary caretaker of the school grounds until the return of Principal Nance.

U. D. Davis, Mr. Richardson and Mrs. C. W. Davis, who have been residing in the old Russell Fisher home on the Southern Sugar Company holdings. These gentlemen are engaged in asparagus culture on a large scale for commercial purposes on their holdings east of town.

It is rumored that Kenneth Lockwood who has been spending the summer in Washington with his mother will return soon, bringing a bride with him.

Roy Hudson and A. O. Walker each purchased new tractors this last week.

E. B. Steele and son Scott, who have been spending the summer in West Palm Beach, passed through South Bay recently en route to Ritta Island with a new tractor with which they will start their fall farming operations.

Paul Jones and party of friends enjoyed a fish and turtle fry at the barber shop recently.
